

The background of the entire poster is a dense, overlapping collage of various ancient Greek coins. These coins feature a wide variety of designs, including the heads of deities like Athena and Zeus, mythological creatures like Pegasus, and various symbols and figures. The coins are rendered in a realistic, slightly aged style with varying shades of brown, gold, and silver.

International Conference

ECONOMY & SOCIETY IN ANCIENT GREECE

June 10-11, 2026
